## PROFESSIONAL EXPERIENCE

### Elis Innovation Hub, Milan, Italy

February 2025 - September 2025

#### Junior Consultant Analyst

- Conducted benchmarking and market analysis research against global best-in-class players, analyzing industry trends and identifying AS-IS gaps and TO-BE growth opportunities and strategies in sustainable business models with market expansion potential for more than 20 million
- Designed visually engaging PowerPoint presentations and dashboards, translating complex analyses into clear, intuitive formats that facilitated informed decision-making during workshops and board meetings
- Applied Design Thinking and user-centered methodologies to analyze customer journeys and develop interactive frameworks, contributing to measurable improvements in usability and consumer engagement of up to 30%

### Gabetti Property Solutions, Milan, Italy

February 2024 – August 2024

#### Finance Intern

- Developed and maintained automated financial forecasting models in Excel to improve reporting accuracy, data analysis, monthly closing activities, and support performance monitoring across subsidiaries of the largest Italian real estate company.
- Prepared management reports and dashboards summarizing key financial indicators, intercompany transactions, and short-term projections, enhancing transparency, consistency, and alignment with corporate planning objectives
- Coordinated financial data consolidation and information flows across more than 20 subsidiaries, standardizing procedures and ensuring consistency in reporting frameworks and budget alignment

### Arch Mortgage Insurance, Greensboro, NC

May 2023 – August 2023

#### Sales Operation Intern

- Developed analytical sales reports and executive dashboards in Excel and Salesforce, transforming raw data into actionable insights that informed management decision-making
- Enhanced sales performance visibility by developing interactive dashboards and automated reports in Excel and Salesforce, driving data-driven decisions and boosting reporting efficiency by 15%

## LEADERSHIP EXPERIENCE

### Junior Enterprise Consulting | Università Carlo Cattaneo (LIUC)

September 2023 – June 2025

- Coordinated cross-functional teams of 3–5 members, managing project timelines, client communication, and delivery of executive presentations to corporate stakeholders and faculty advisors improving project management skills
- Delivered 8+ consulting projects, collaborating with internal university departments and external partner companies in sectors such as finance, operations, and digital transformation.

### Student Athlete, (Soccer) | Università Carlo Cattaneo (LIUC)

September 2024 – June 2025

- Contributed significantly to the team's historic achievement of reaching the national semifinals, the highest competitive level ever attained in the University's history demonstrating collaboration, resilience, and leadership skills

## ACADEMIC PROJECTS

### Blended Intensive Program | Häme University of Applied Sciences (Finland)

February 2025 - May 2025

- Selected through a competitive European Union-funded scholarship program for top-performing students to work on a consulting project with peers from five European universities, analyzing client company's purchasing behavior and delivering data-driven insights

### Junior Consulting Week | Consortium Elis

January 2025 – February 2025

- Selected out of 30 young talents from across Italy to participate in the Junior Consulting program organized by Consortium ELIS, an initiative that connects high potential students with leading corporations through real world business challenges
- Had the opportunity to collaborate directly with six major companies with revenues exceeding \$500 million, analyzing strategic problems and proposing innovative solutions, leading to the opportunity of transitioning into a full-time role inside the company
